

BIGGER THAN THE SUM OF ALL OUR PARTS.

Founded in 2002, ITS Infinity Trading began with the mission to be the leading supplier of aircraft aftermarket spares. Our dedicated staff has developed a companywide culture that delivers quality products, exceptional customer service, and competitive pricing that is second to none in the industry. With our state of the art 20,000sf facility, we are able to manage our large “ready to go” inventory from aircraft acquisitions and strategically purchased stock.
